C.R.I. PUMPS

Pumping trust. Worldwide.

MAKE A CLEAN JOB OF IT

**WASTE WATER SUBMERSIBLE PUMPS - 50Hz
SM, SH & DM SERIES**

An ISO 9001 & ISO 14001 Company

EC-SD5N-07/17-E6

T H E B E G I N N I N G

of C.R.I., way back in 1961, was a resolute attempt to produce a few irrigation equipments using the limited facilities of an in-house foundry. Eventually the founder's dream was coming true as the small production unit he started kept growing rapidly. Now, after more than five eventful decades, it is an enormous, widely reputed organization, which produces more than 2300 varieties of perfectly engineered pumps and motors and sells its products in numerous countries spread across 6 continents.

C . R . I . I S O N E A M O N G

the few pioneers in the world to produce 100% stainless steel submersible pumps. Having achieved a record production capacity of over 2 million pumps per annum, today C.R.I. is rubbing its shoulders with the best brands in the world, with advanced technology and safety standards as its hallmarks.

T H E I N F R A S T R U C T U R E

of C.R.I. is pretty comprehensive with state-of-the-art machineries and high potential in-house R&D recognised by the ministry of science and technology, Govt. of India - all within its own covered area of 200,000 square metres. The production environment is accredited with ISO 9001, ISO 14001 & OSHAS 18001 certifications and the products are CE, UR/UL, TSE & ISI certified. The R&D team always stays in tune with the changing scenario and seldom fails in coming up with outstanding solutions every time.

N E E D L E S S T O S A Y ,

behind this legendary growth lies the untiring, innovative, enthusiastic and dedicated team work. And, of course, a flawlessly maintained value system too. The name C.R.I. itself encapsulates the company's ethos: " Commitment, Reliability, Innovation".

Model Identification Code - Waste Water Pumps

Description

DMA - 2D - 60GT/4 : 6 kW - 3 Phase 4Pole, 4" outlet Medium Drainage Pump with Agitator & Open Double Channel Impeller.
 SMS - 5E - 75GT : 7.5 kW - 3 Phase 2Pole, 4" outlet Stainless steel Medium Sewage Pump with SS Closed Double Channel Impeller.
 SH - 5E - 110ET : 110 kW - 3 Phase 2Pole, 2½" outlet Heavy Drainage Pump with Closed Double Channel Impeller.

C.R.I. WASTE WATER SUBMERSIBLE PUMPS

With the excellence gained in pump technology over the period of 50 years C.R.I. has introduced highly efficient and reliable sewage & drainage pumps in a comprehensive range. These pumps are available with different materials of construction and feature a multitude of applications in waste water handling and treatment.

Besides expanding its product portfolio, C.R.I. is firmly committed to contribute a vital role in creating a more pleasant and affluent living condition world wide, which is one among its ambitious goal.

All C.R.I. drainage & sewage pumps are perfectly powered by motors designed to deliver optimal performance and to with stand vagaries of weather and power fluctuation.

C.R.I. 's well equipped R&D coupled with the latest engineering software & technology, highly flexible production facilities, stringent, integrated & modern quality control systems well tuned logistics system & steadfast work force ensure delivery of high standard and flawless products. Proven performance, functional design, quality and after sales support ensure trouble free operation year after year.

Features

I International standard design I Auto cut I Silicon Carbide / Tungsten Carbide mechanical seal I SS I good quality and performance.

Multiple impeller design to handle different sewage & waste water.

Full range from low head to high head, Compact & easy installation, Equipped with guide rail system.

Applications

I Draining sewage water from hotels, houses, commercial buildings complexes etc I Pumping waste water in industries I Tunnel and mines I Pumping sewage water from stock farms & manhole sewer I Sewage treatment plants I Pumping municipal sewage water I Septic tank I Leather factories I Aquaculture water supply and drainage I Dewatering in construction sites I Water supply for agriculture irrigation, underground water pumping I Land scape and horticulure irrigation I Pumping of water from rivers & lakes

Medium and Heavy Sewage Pumps - SM & SH Series

SM Series

SH Series

Specifications

Pump Type	Medium Sewage - SM Series	Heavy Sewage - SH Series	
Power Range	2.2kW - 5.5 kW	5.5 kW - 15 kW	7.5 kW - 37 kW
Speed	2900 rpm	2900 rpm	1450 rpm
Version	380 ~ 415V, 3Ph, 50 Hz, AC Supply	380 ~ 415V, 3Ph, 50 Hz, AC Supply	
Degree of Protection	IP 68	IP 68	
Insulation Class	F	F	
Impeller Type	Closed Double Channel	Closed Double Channel	
Duty	S1	S1	
Direction of Rotation	Clockwise viewed from driving end	Clockwise viewed from driving end	
Max. Immersion Depth	5m	5m	
Max. Liquid temperature	40°C	40°C	
Max. Ambient temperature	40°C	40°C	
Permissible pH value	6 -10	6 - 10	
Max. Solid Handling Capacity	upto 35 mm	upto 55 mm	
Pump Outlet Size	2", 2½", 3", 4"	2½", 3", 4", 6", 8" & 10"	

Materials of Construction

Pump Name	Material
Stator Housing	Cast Iron
Cable	H07RN - F
Rotor Shaft	SS 420
Bearing Housing	Cast Iron
Pump Casing	Cast Iron
Mechanical Seal	Hard Alloy vs Silicon
Impeller	Cast Iron
Bracket Casing	Cast Iron
"O" Ring	NBR
Oil Seal	NBR

*All Sewage pump models can be supplied along with guide rail system on request.

Sewage Pump with Cutter - SMC Series

Specifications

Pump Type	SMC Series
Power Range	1.1 - 1.85 kW
Speed	2900 rpm
Versions	1Ph, 230V, 50Hz 3Ph, 380V, 50Hz
Pole	2 Pole
Protection	IP 68
Insulation Class	Class F
Direction of Rotation	Clockwise viewed from driving end
Max. immersion depth	50 m
Max. liquid temperature	40°C
Impeller Type	Semi open multi channel
Outlet Size	2"

Materials of Construction

Part Name	Material
Handle	SS 304
Stator Housing	Cast Iron
Pump Casing	Cast Iron
Shaft	SS 420
Mechanical Seal	Silicon - Ceramic
Impeller	Cast Iron
Cable	Rubber
Bearing Housing	Casted SS304
Cutter	SS 400C
Oil Seal	NBR

Stainless Steel Medium Sewage Pumps - SMS Series

Specifications

Pump Type	SMS Series
Power Range	2.2 kW - 7.5 kW
Speed	2900 rpm
Version	380V, 50Hz, 3Phase AC Supply
Insulation Class	F
Degree of Protection	IP68
Direction of Rotation	Clockwise viewed from driving end
Max. Liquid temperature	40°C
Max. Ambient temperature	40°C
Permissible pH value	4~10
Impeller Type	Closed Double Channel
Max. Solid Handling Capacity	Upto 35 mm
Pump Outlet Size	2", 2½", 3", 4" & 6"

Materials of Construction

Part Name	Material
Stator Housing	Casted SS304
Rotor Shaft	Casted SS304
Bearing Housing	Cast Iron
Pump Casing	Casted SS304
Mechanical Seal	VITON
Impeller	Casted SS304
Oil Seal	VITON
Bracket Casing	Casted SS304
"O" Ring	VITON
Cable	Rubber

GUIDE RAIL SYSTEM

C.R.I. Guide Rail System consists of a base elbow, guide rails, top bracket, sliding hook & chains.

Features

Guide Rail System is used for easy & handle free installation. Further this helps for raising / lowering the pump quickly & conveniently for maintenance without entering the sump and without disturbing the pipe connections..

Applications

Waste water pumping stations where the pumps are subject to regular maintenance & inspection such as Effluent Treatment Plants (ETP), Sewage Treatment Plants (STP) & Sewage Pits.

* All our Medium & Heavy Sewage pump can be supplied with guide rail system.

WINNING WAYS

When you have a good thing going it is quite in the fitting of things that recognitions come our way. Several prestigious awards, which decorate our shelf, say it all. These rewards not only acknowledge our position as a leader in the water pump industry but also serve as reminders about what the customer expects from a winner. And we, as ever, have our ears perfectly tuned to customer expectations.
