

C.R.I. PUMPS

Pumping trust. Worldwide.

SN SERIES

SUBMERSIBLE SLURRY PUMPS

Mine slurries or Industrial wastes require to manage carefully to ensure long-term stability of storage and disposal to prevent air, water & soil **contaminations**. Sediment of waste or slurries not only contaminates the water & environment, it chemically reacts and generates toxic gases. Thanks to **C.R.I Submersible slurry pumps** for helping Industries to remove the slurries effectively & keep the Environment **CLEAN & SAFE**.

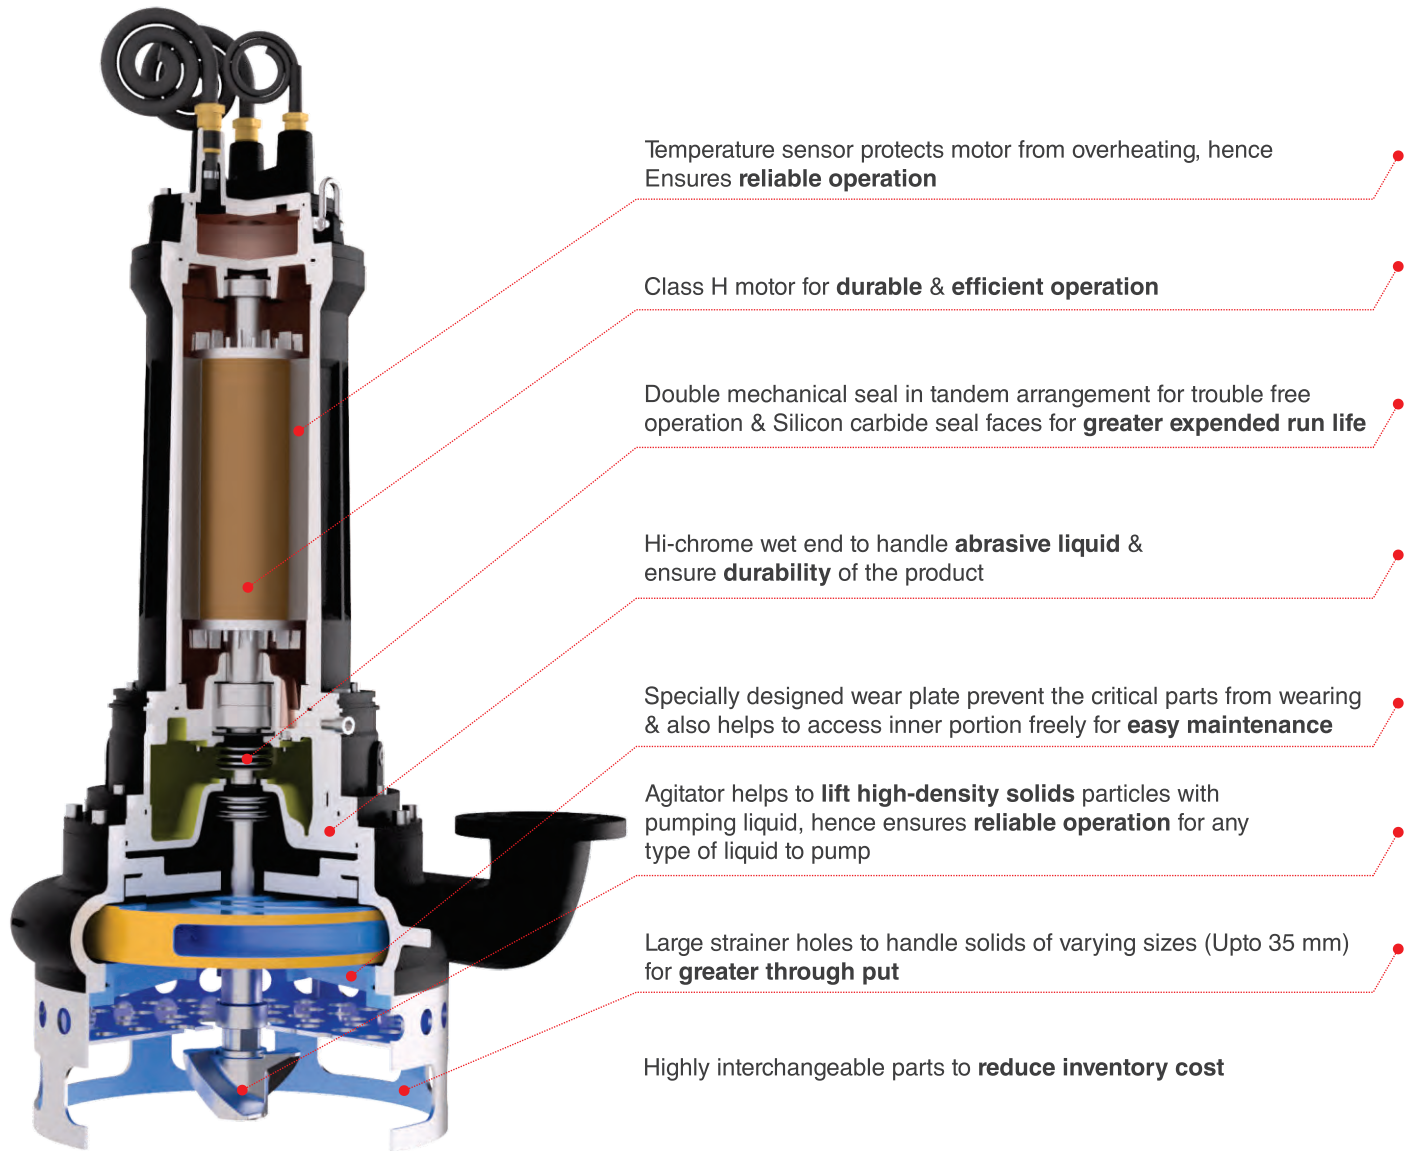

C.R.I Submersible slurry pumps fitted with **agitators** are well suitable for high density solids & high specific gravity sediments up to 65% solids by weight. It agitates, break down and re-suspends the settled or composited solids and helps the pumps to transfer it easily.

APPLICATIONS

- Mining industries
- Mineral refineries
- Mill scale
- Tailing ponds
- Coal pile runoff
- Fly ash sump
- Building & construction

Our strong network of **12+ wholly owned subsidiaries in overseas, 40+ distribution centers, 6000 channel partners and 1500 service centers** ensure you to get prompted service and delivery of the pump on time.

FEATURES & BENEFITS

TECHNICAL SPECIFICATIONS

50Hz

■ Power	:	18 kW & 25 kW
■ Flow	:	Upto 120 m ³ /h
■ Head	:	Upto 24 m
■ Solid handling sizes	:	Upto 35 mm
■ Outlet size	:	Upto 102 mm
■ Liquid temp.	:	Upto 40°C
■ Pressure	:	Upto 10 (bar)
■ MOC	:	Hi-chrome, Nihard, CI, & 2% NiCL, AISI 9840
